

Ilia Kotelnikov

Unity3D Developer

+7 (998) 990476531 i.kotgamedev@gmail.com [LinkedIn](#) [GitHub](#)

SUMMARY

Unity Developer with 5 years of experience developing gameplay mechanics and systems for mobile and pc games. Specializing in hyper casual games for Google Play, App Store and Web, midcore pc games for steam. International Game Jams winner. Master's degree in Applied Informatics. Developed a mobile game with 50+ mln installs. I'm interested in learning new technologies and applying them in real work. When I have free time, I'm participating in game jams or making some pet projects to test new features and tools.

SKILLS

Unity3D, C#, Git, AppLovin, Firebase Analytics, Firebase Firestore, Appmetrica, Agile, Zenject, Unity DOTS, Unity Muse, Photon Fusion, Gameplay Programming, VR Development, Shader Programming, Animation Rigging, Multiplayer Networking, Unity Editor Scripting, 3D Modeling, Web Development, AI Programming, Copilot, XML, Json, Agile, Scrum, Kanban, Cross-functional collaboration, SDK implementation, PostgreSQL, Mirror, Steamworks

PROFESSIONAL EXPERIENCE

KORO.games

Aug 2020 – Present

Game development for [AZURE GAMES](#) and [MadPixel](#) as mobile publishers and [Alawar](#) as pc publisher

Unity Developer

- Implemented several relay systems for multiplayer game and net voice system ([Friendly Steps](#), [High Walk](#))
- Setup steam page for [Friendly Steps](#) and open play test page
- Developed an analytics tool using AI to test WebGL game prototypes (Postgresql database & client code pack)
- Developed two major gameplay updates: [War Of Rafts](#)
- Overhauled enemies AI for world conquest: [Country Balls](#)
- Produced and published **15+ mobile game prototypes**
- Coded combat and ai systems for successfully released turn-based tactical Steam game ([Necro-King](#))
- Implemented SDK for ([Necro-King](#)) to be published on SteamDeck, GOG, EGS
- Ported 7 apps to WebGL for Yandex Games platform in close collaboration with publisher's marketing team
- Mentoring 5 Unity developers undergoing internships
- Built GitHub Copilot AI into the company's workflow to speed up programmers by 30%
- Some of game demos I've worked on [mechamice](#), [hamster-than-light](#), [endless-hunt](#), [cooper-mountain](#)

PERSONAL PROJECTS AND COURSEWORKS

- Created an update for [Necro-King](#) that allows viewers from Twitch to help their streamer through the game (game responds to viewers' chat commands)
- Developed mobile multiplayer [game prototype](#) based on Unity DOTS and Photon Fusion (20 players per round)
- Using the C++ Qt framework, coded a cross-platform text editor with the ability to synchronize client applications through the server

CO-PROFESSIONAL ACHIEVEMENTS

International Game Jams

- Selectel GameDev Hack - finalist Oct 2020, [game](#)
- EdHack AR/VR - winner Oct 2017

EDUCATION

Institute of Economics, Math and Information Technology

Sep 2022 – Jul 2024

Master's Degree in Applied Informatics (major in Game Development), GPA: 4,8

Thesis: "Algorithms for controlling changes in the behavior of npc's of a computer game", presented it at Super Computer Forum

University of Science and Technology

Sep 2018 – Jul 2022

Bachelor's Degree in Applied Informatics (major in Digital Design), GPA: 4,68

ADDITIONAL INFORMATION

- Languages: Russian (native), English (B2) IELTS - 6.5; German (A1)
- Interested in 3D stylised design. Have [experience](#) with Blender, Substance Painter and Marmoset
